DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, drawn to a packaging method of components, classified in class 053, subclass 461.
- II. Claims 2-10, drawn to a method of forming a package assembly, classified in class 493, subclass 51.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions as defined by the claims of group II neither recites nor requires the inventions as defined by the claims of group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. D. E. McConnell on 09/14/2004 a provisional election was made with traverse to prosecute the invention of Group II, claims 2-10. Affirmation of this election must be made by applicant in replying to this Office action. Claim 1 is

withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joscelyn Cockburn on 09/22/2004.

The application has been amended as follows:

cancel claim 1;

(claim 2, line 20) delete "wall" after "proximal" and instead insert --side--;

(claim 2, line 20) delete "wall" after "distal" and instead insert --side--.

REASON FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest the combination of the claimed method of forming a protective package comprising the steps of determining a thickness of a material

Art Unit: 3721

sheet and the dimensions of a component to be packaged, identifying locations on the sheet for voids, slits, and folds, placing an overlay of dimensions of the component onto the material sheet, determining a first fold location, determining a first slit location, determining at least one cutout location, determining a height dimension of the proximal side and the distal side, and determining at least one viewing void location (Figs. 1 and 2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sameh H. Tawfik whose telephone number is (703) 308-2809. The examiner can normally be reached on Tuesday - Friday from 8:00 AM to 6:00 PM.
